From instagram: "Just getting to the ridge by prayer flags in Beehive basin. 100 maybe 200 yards wide. Cracked all the way around the corner almost to a couple old tracks. Seemed to be a natural from last night or this morning.

We saw another big natural avalanche further up the ridge into middle that was a few days old. Propagated across multiple gullies. Crown was 2-3 ft."

Region
Northern Madison
Location (from list)
Beehive Basin
Observer Name
Shane Knowles
