Avalanche in Goose Crk near Cooke

Goose Creek
Cooke City
1/9/2021
Code
SS-N-R2-D1.5-O
Elevation
9000
Aspect
N
Latitude
45.09230
Longitude
-109.95100
Notes

From email: "We suspect this happened fresh today, we wonder if those animal tracks coming in from the left triggered it. North facing, 2 ft crown, (I'd guess), about 9k feet, facing Goose Creek. So our friends (while ski cutting) triggered a very similar slide on this same aspect/elevation mid afternoon today, about 1/4 mile farther west along this ridge, looked to be same depth."
