Avalanches North of Bridger Bowl

Wolverine Bowl Bridger Range 1/26/2019 Code SS-N-R2-D2.5-I Elevation 7500 Aspect NE Latitude 45.83480 Longitude -110.93400 Notes

A group with the MSU advanced avalanches class found multiple <u>slab</u> avalanches that released at various times during this week's storm. Three of the slides ran for a large portion of their <u>slide</u> path. One avalanche was large enough to break small trees in the <u>slide</u> path. Ski tracks nearby suggest this avalanche was skier-triggered. Photo: A. Schauer
