Snowmobile triggered avalanche near Cedar

Cedar Mtn. Northern Madison 1/26/2019 Code SS-AMu-R3-D2 Elevation 8600 Aspect NE Latitude 45.22790 Longitude -111.48900 Notes

From YCSP: "One of our patrollers spotted a snowmobile triggered avalanche on Cedar Mountain this afternoon. The patroller reported a <u>track</u> entering and exiting the path. The slope was NE facing at approximately 8,600'. It was difficult estimating the dimensions of the <u>slide</u> as the visibility was limited and we were quite a ways from the avalanche."
