

Natural avalanches near the Throne

The Throne

Bridger Range

2/28/2019

Code

SS-N-I

Elevation

8000

Aspect

NE

Latitude

45.88230

Longitude

-110.95200

Notes

A skier reported seeing multiple recent avalanches near the Throne. They dug a pit and got propagating results failing at a density change within the new snow. From the email: "Around a foot of wetter, denser new snow (F+) slid on a dryer new snow interface (F-)". Photo: C. Kussmaul
