

Numerous natural dry slabs near Cooke

COOKE CITY

Cooke City

4/10/2019

Code

SS-N-R1-D2-S

Elevation

9500

Aspect Range

E-NE

Latitude

45.05450

Longitude

-109.94500

Notes

We rode to Lulu pass and had enough visibility to see a N-SS-R1-D2 [slide](#) on the big Henderson [slide](#) path.

We could also see at least five N-SS-R1-D1.5 slides along Miller Bench (between Miller and Wolverine).

And, a couple wide R2-D2 crowns on Miller Ridge.

All 1-2' deep, not very wide. Likely ran the last day or two after 2-3' of heavy spring snow earlier this week.

Multiple Avalanches
