

From email: "We both set off some small sluffing on the west side of the ridge between Middle and Beehive on our way out; the snow on that aspect was a lot thinner and more prone to sliding on the older icy crust under the new snow. Photos are from below where we skied out; we dropped onto the west-facing slopes maybe 100' south of the prayer flags." Photo: P Calabro

Advisory Region Northern Madison Longitude -111.39W Latitude 45.34N
