

Middle Basin

Date

Wed, 01/11/2023 - 11:30

Activity

Skiing

Starting at Bear Basin trailhead toured into Middle Basin topping out at the highpoint on the ridge. We saw no signs of snow instability throughout the day. The temperatures were warmer than expected in the morning, the afternoon brought cooler temps and a little snow. The skiing was suprisingly good in places and wind affected in others.

Region

Northern Madison

Location (from list)

Middle Basin
