

Remotely triggered Lawn Mower

Date

Thu, 03/14/2024 - 10:30

Activity

Skiing

On the morning on 3/14/24, a skier remotely triggered the Lawn Mower and an adjacent path on "Town Hill" in the Absaroka Range (outside of the GNFAC advisory area) while ascending on the other side of the ridgeline from the paths. The [slide](#) ran at least 1000 ft vertical.

From IG: "1/4 to 1/2 mile wide crown. Lawnmower and adjacent gully. 2-4 ft deep. [Remote trigger](#) from ~200 ft away. Crown is 8800 ft N/NW"

Region

Out of Advisory Area

Location (from list)

Lawn Mower - Town Hill
